What is "Microsoft Office Ready PC"?

A Microsoft Office Ready PC has the Office 2007 (Office Basic 2007, Office Small Business 2007 and Office Professional 2007) preinstalled as 60-Days-Trial Version. This means that no installation is required. All you need to use the Office 2007 system is the license key to "unlock" the Office suite of your choice. This license key is called Medialess License Kit (MLK).

What are Medialess License Kits (MLK)?

Medialess License Kits (MLK) contain suite specific product keys which enable customers to "unlock" either Microsoft Office Basic 2007, Small Business 2007 or Professional 2007. These kits also contain licensing information.
